**FOR RELEASE: December 15, 2009**

## **Non-Safety Related Voluntary Recall Of Certain Lots of H1N1 Pediatric Vaccine.**

After being notified by Kansas Department of Health and Environment about the non-safety related recall of certain lots of H1N1 pediatric vaccine, the Reno County Health Department advises they received 300 doses of the affected vaccine and still have 100 doses of the vaccine which will be returned.

CDC and FDA are in agreement that there is no need to revaccinate children who received doses from these lots. Additionally, there are no safety concerns for children who received this vaccine. Children under the age of ten require a second dose of the H1N1 vaccine and this recommendation is not affected by this recall.

The Non-Safety Related Voluntary Recall information from CDC can be viewed online at [www.cdc.gov](http://www.cdc.gov).

For more information call the Reno County Health Department at 620-694-2900.
