15-101 Conditional Uses - Purpose and Intent: The establishment of virtually all land uses except agricultural and traditional single-family residential, in most cases, are not appropriate in the bulk of unincorporated portion of Reno County; especially those land uses that are of an extremely sensitive nature due to the intensity or environmental impacts associated with the normal operation of the business or activity. However, it is recognized that it may be acceptable, on a case-by-case, site-by-site basis, to permit the development of such land uses where conditions warrant and adequate safeguards are taken to mitigate any of the potential problems associated with said development. Therefore, in order to develop any land use other than agricultural and traditional single-family residential in the unincorporated portion of Reno County, a Conditional Use Permit issued in accordance with these Regulations shall be required.

It is the intent of this Article to require a Conditional Use Permit for all proposed land uses, except those specifically prohibited herein or allowed as a permitted use in one of the established zoning districts. As such, it is acknowledged that any property owner may seek a Conditional Use Permit for any of the types of land uses indicated herein for any property within the unincorporated portion of Reno County. The subsequent approval of such request by the Governing Body is a purely discretionary act that will be decided based upon the facts and circumstances discovered in the review of each application. There is no implied "right" for any person or landowner to obtain a Conditional Use Permit for any use on any property.

It is also the intent of this Article to allow the issuance of Conditional Use Permits that provides for more than one use on any property; provided the range or type of uses is clearly delineated within the Conditional Use Permit, the other relevant facts have been evaluated, and the approval is consistent with the spirit and intent of this Article and these Regulations. (For example: a Conditional Use Permit could be approved for a "strip shopping center" in a location where transportation and adequate water and sewage disposal services are available; or it could indicate a range of "retail and/or service businesses" as being appropriate for this location.)

15-102 Application of Conditional Uses: Before the location or establishment of any land use requiring a Conditional Use Permit, or before any change or use of the premises existing at the time of the effective date of these Regulations or permitted as herein provided is made, a Development Plan in sufficient detail and a statement as to the proposed use of the buildings, structures, and premises shall be submitted to the Planning Commission as specified in Article 8 of these Regulations. The Planning Commission shall hold a public hearing following the provisions also outlined in Article 20 of these Regulations and shall review such Development Plan and statements and shall, after a careful study of the effect that such buildings, structures, or uses will have upon the surrounding property, submit a recommendation to the Governing Body.

Following receipt of the Planning Commission's recommendation, the Governing Body may, within the specifications herein provided, permit such buildings, structures, or uses; provided that the public health, safety, morals, and general welfare will not be adversely affected, that ample off-street parking facilities will be provided, that the transportation and utility services are appropriate for the level and intensity of the proposed development, and that necessary safeguards will be provided for the protection of surrounding property, persons, and of neighborhood values. In this regard, the Governing Body may impose reasonable conditions on the approval of a Conditional Use Permit including, but not limited to, those items identified in Article 8 of these Regulations.

15-103 Qualification of Existing Conditional Uses: Properties with land uses operating under an existing Conditional Use approved prior to the adoption of these Regulations, or that were zoned and used as commercial or industrial under the previous Zoning Regulations, shall be permitted to continue, but with an unapproved Conditional Use Permit. Changes in the building(s), operation(s) or use(s) of said properties shall be treated as requiring an amendment to said unapproved Conditional Use Permit and considered as provided Section 15-102 herein.

15-104 Additions and Changes to Conditional Uses: All subsequent requests for additions and structural alterations to Conditional Uses approved by the Governing Body shall be considered in the same procedure as outlined in Section 15-102 herein.

15-105 Conditional Uses Enumerated: The following Conditional Uses are some of the uses that may be approved by the Governing Body as provided in this Article. Other land uses may also be permitted by Conditional Use Permit except those specifically listed as permitted uses in the zoning districts or as prohibited uses in these Regulations.
